**Embodiment and Integration through  
Constellation and Systemic Ritual**

In this weekend we offer an embodied experience of relating with the energy of the ancestors, through Constellation work, Systemic Rituals, Meditation, Prayer and Sharing. We will move through different layers of our ancestral field, focusing on meeting the resourcing, supportive and healthy elements present in our ancestors. We reconnect with the strength and wisdom that has been present in the past, opening spaces for healing traumatic and incomplete energies – in the ancestral field and in current life situations.

The workshop includes movement, voice expression and group rituals and you can bring in life questions and actual issues regarding family, work, health, relationships, sexuality, etc. Every participant has space to engage and be part of the process, whether through a constellation, by representing, participating in the systemic rituals or through witnessing the process.

**Komala Amorim (Brazil) & Gregor Steinmaurer (Austria).** Are a married couple, live in Austria and work internationally with workshops and long trainings on integral development, conscious sexuality & relationships, and embodied spirituality.
